### **General Motors 2007 Full Size SUV Rear Window Wiper**

The rear window wiper on the 2007 Chevrolet Tahoe and Suburban, GMC Yukon and Yukon XL and the Cadillac Escalade has, on occasion, been damaged in a car wash.

General Motors has advised the International Carwash Association that a production change for the rear wiper is being developed. The tentative date for introduction is late June or early July.

A field fix also will be developed for which a bulletin will be published about the same timeframe.

Since the vehicles described above are under warranty, it is suggested that until General Motors determines the field fix, that you have the owner of the vehicle return to their dealership for the wiper arm replacement.

The production change date and the bulletin information will be published on the **[www.CarCareCentral.com](http://www.CarCareCentral.com)** as soon as they are determined by General Motors.

If you have any questions, please contact Joe Ward at International Carwash Association Headquarters at [ica@smithbucklin.com](mailto:ica@smithbucklin.com).
